About the courses

The courses will support students in extension high schools, colleges and non-government schools, as well as providing curriculum support for teachers. They are designed to suit a variety of learner contexts ranging from fully online through to augmenting face-to-face delivery.

The courses represent one way of presenting the relevant TASC course, but teachers are encouraged to adapt the content to meet their own needs. A sample scope and sequence has been provided for each one along with assessment information.

Accessing the courses

These courses are available for viewing in Canvas. They can be viewed at <https://canvas.education.tas.gov.au/login/canvas?ICT> using the username and password: **1112courses.cs**.

Additional information on downloading courses for teachers who are not in a Department of Education school can be found on the Years 11 and 12 Curriculum website (11and12.education.tas.gov.au) under 'Course development'.

For more information please contact Mark Sivills on 6332 7706 or mark.sivills@education.tas.gov.au.
