

COURSE AMENDMENT Rationale

Life Sciences LEVEL 2

Rationale for Change

1. Brief Summary of the nature of the change proposed:

- rewording Learning Outcomes
- minor changes to Pathways
- inclusion of reference to Criterion 8 within the introductory text under THEMES within the Course Content
- rewording Criteria
- additional mapping of Australian Curriculum: Biology Units 1 and 2 Science Inquiry Skills and Science as a Human Endeavour
- the addition of a Line of Sight table

Explicit details can be found in the attached *LSC215115 Amendment Description*

2. Reason the change is needed (other than editorial changes) – in terms of improvement to the outcomes for learners:

- The current course expires at the end of 2019. Some amendments need to be made for this course to be reaccredited. Specifically these were in relation to rewording:
 - Learning Outcomes
 - Criteria

3. Impact of the proposed changes on delivery:

- The proposed changes will have no impact on delivery – aside from providing greater clarity for learners and providers.

4. When would be the best time to implement the change?

- The changes should be in place for use by providers in 2020.
