

COURSE AMENDMENT

Description

MUSIC STUDIES

LEVEL 2

Amendment Description

Access

Currently the Access description refers to non-school based providers. The proposed change relates students' level of music skills to Australian Curriculum:

'This Level 2 course is designed for students who have successfully completed Band 9-10 Australian Curriculum Music or who hold equivalent skills.'

Pathways

Similarly, the current Pathways section does not refer to current pathways in to the course so the proposal is to add the following statement:

'This course provides a pathway for those who have previously studied Australian Curriculum Music.'

Criteria

Currently Criterion 3 is 'Create and present music statements'. This has been changed to 'Create and present music'. This is to differentiate between the practical playing of music and the theoretical components of the course that involves written musical statements.

Standards

Minor wording changes to standard elements are being proposed for the purpose of clarification.
